

FeedARMOR Launch
Spokesperson Photos & Bios
World Pork Expo
June 4-5, 2025

Dr. Scott Dee
*Emeritus, University of
Minnesota and Pipestone
Research*

Dr. Scott Dee is a globally recognized swine veterinarian and researcher with more than 30 years of experience in animal health, biosecurity and infectious disease mitigation. He served as Director of Applied Research at Pipestone Veterinary Services and was a professor at the University of Minnesota College of Veterinary Medicine. Dr. Dee's groundbreaking research has shaped industry understanding of virus transmission through feed and led to innovative strategies to protect animal health. He holds a DVM and PhD from the University of Minnesota and is a diplomate of the American College of Veterinary Microbiologists.

Dr. Fredrik Sandberg
*Senior Research and
Development Nutritionist,
McNess*

Dr. Fredrik Sandberg grew up on a mixed livestock farm in Sweden and has built a career at the intersection of animal nutrition, health and sustainability. He earned his PhD in swine nutrition and growth modeling from the University of Edinburgh, where his research focused on the effects of nutrition during health challenges.

Since 2010, he has served as a swine nutritionist and now leads research and product development at McNess. His work centers on developing innovative feeding programs across species to meet the growing demand for sustainable, high-quality and safe animal protein.
